Sensaria's Balancing Act: Naturally-Based Products and a Better Lifestyle

Beauty is a state of mind. And with naturally-based products and a compelling business opportunity, Sensaria Natural Bodycare can help you get there.

Located in the Pacific Northwest, Sensaria has been selling its naturally-based line exclusively through Independent Representatives and online since 2000. Sensaria Representatives were introduced to four brand new selections at the company's annual National Convention this July and the reaction has been remarkable.

"These products blend natural ingredients and cutting-edge science for a superior skin care experience – at a terrific value in today's economy," boasts founder Rob Barnes.

Sensaria's new Microdermabrasion Crème is a gentle resurfacing treatment that is safe and effective for even the most sensitive skin. This anti-aging treatment features volcanic microcrystals suspended in a soothing conditioning crème infused with chamomile, licorice and azulene to deeply exfoliate while minimizing the appearance of fine lines. This superior formulation contains no aluminum oxide, synthetic color or fragrance and is free of parabens. And – at just \$28 - it delivers at-home, medi-spa results at an outstanding value.

Enhance your mind/body connection while you connect to a better body with new anti-cellulite products designed to energize, tighten and hydrate body skin to lessen the appearance of cellulite. Sensaria's Cellulite Contouring Serum (\$39) is a refreshing, non-oily body contouring gel formulated with CoEnzyme A and effective botanicals that help to energize and tighten your skin. Follow with Cellulite Smoothing Crème (\$34) for a decongesting and softening effect. Apply Sensaria's Rejuvenating Salt Mud (\$40) before this anti-cellulite ritual and the combined effects are truly amazing.

For dessert... Sensaria's introduction of their new Sweet & Smooth Body Lotion (\$24) was the icing on the cake and received thunderous applause when it was introduced to Sensaria Representatives. This extra emollient body lotion complements the ever popular Sweet & Smooth Body Scrub (\$25) to leave your skin touchably soft and silky smooth with a subtle citrus-vanilla scent.

Sensaria's Business Opportunity is something that women connect with season after season. In addition to the lucrative financial rewards, becoming a Sensaria Representative puts you on a career path that delivers a sense of satisfaction, sisterhood, self-worth and life/work balance that you just can't get from a 9-to-5 job. The company has over 4500 Independent Representatives nationwide and is on a mission to bring its message of self-care and opportunity to thousands more this year. We invite you to bring the spa home.
